Construction Services, LLC

MIG Construction Services, LLC

In existence since 2007, MIG Construction Services has quickly grown to become a leader in steel fabrication solutions in West Tennessee.

MIG Construction Services began as a fabrication service to the larger family of MIG companies comprised of 5 companies with 1,420 employees at 5 locations in the state.

MIG Construction Services has 4 locations in Tennessee to better serve your needs:

- ☐ Lexington Plant - 228 Rush Street
- ☐ Memphis Office - 158 Madison Ave, Suite 101
- ☐ Nashville Office - 22 Century Blvd, Suite 550
- ☐ Nashville Office – (AD&A) – 3807 Charlotte Ave.

MIG

Construction Services, LLC

Our Path

Since entering the industrial, commercial, and medical construction markets, MIG Construction Services has successfully completed projects ranging from large miscellaneous, heavy structural, window washing and building maintenance equipment.

As a certified fabricator by the American Institute of Steel Construction, MIG strives to provide steel fabrication “solutions” to the construction industry. By that, we mean going beyond simply furnishing materials for division 5, 11 and 13. On each project, we strive to become an integrated player in the success of a project by anticipating problems and coordinating solutions for the good of the entire project.
